1 ADAPTIVE FABRIC

Temperature regulating Adaptive fabric technology works with moisture-wicking TENCEL™ fibres for improved breathability that's softer than silk and cooler than linen.

2 HYBRID TECHNOLOGY

Our exclusive waterfall design delivers the perfect combination of comfort, technology and elegance. Hybrid technology allows you to truly experience the indulgent comfort of our PrimaSense Memory Foam and exclusive Smart Align Latex like no other.

3 COMFORT LAYER

Exclusive SmartAlign Latex and two inches of PrimaSense Memory Foam work with three and a half inches of Premium Gel Foam comfort layers to deliver an elevated feel.

4 INTELLICOIL® ADVANCED

Our one-of-a-kind patented coil-in-coil innerspring is designed to support and cradle you with even more adaptive support for every type of sleeper.

5 AIRVENT SYSTEM

Ventilated PrecisionEdge works with four external air vents to help prevent heat build-up in your mattress to promote an even cooler, more comfortable deep slumber throughout the night.
